

## **Tellus Introduces Compact, Affordable UPJ-70 “Mini” Level 2 Networked EV Charging Station**

*Las Vegas, NV January 5, 2017*

Tellus Power will be unveiling the small, rugged, and affordable UPJ-70 Level 2 EV charging station at the Consumer Technology Association (CES) conference in Las Vegas on January 5, 2017. The charging station is ideal for curbside, fleet, workplace, parking lots, retail shopping centers, hotels, government, education, and healthcare.

The Tellus UPJ-70 is built rugged like a parking meter with ultra-tough construction. The housing is made with rugged ¼" marine-grade and aircraft-grade corrosion-resistant aluminum. It's sleek, small, all-weather design withstands rain, snow, dust, humidity, and extreme temperatures.

The UPJ-70 is optimized for fast, easy installation, and offers a powerful, low-cost cloud network with free 1<sup>st</sup> year network license and no provisioning fees. Secure authorization is via driver's smartphone, RFID fob, or built-in numeric keypad. The UPJ-70 offers future-proofed modular construction with removable head unit with upgradable components.

The UPJ-70 offers station owners an effective mobile advertising solution that allows you send HTML promotional messages directly to a driver's smartphone. The UPJ-70 is equipped with an 18' charging cord, or optional wall-mounted retractable cord system. The UPJ-70 includes a 2-year warranty with 1, 2, 3, and 5 year extended warranties. Tellus UP-Series EV charging stations are made in California, USA.
